

A-PACT Stakeholder Engagement

Co-designing A Pan African Conservation Trust

- Ideas generation
- Buy-in & financing
- Innovate
- Co-design
- Learn & build on experience

A-PACT must be truly Pan-African and serve Africa's conservation needs. Build country buy-in, accountability and ownership.

AFRICAN CONTRIBUTION TO THE CBD GLOBAL BIODIVERSITY FRAMEWORK

- Failure to achieve Aichi Targets stems from a lack of resources.
- CBD GBF Resource Mobilization strategy needs strengthening
- Broader biodiversity financing mechanism context
- A-PACT contributes to Africa's financing targets & priorities
- A Pan Africa approach creates opportunities to advocate for higher level of ambition

Support for A-PACT as transformative & timely. Commensurate to change required on the continent.

A-PACT needs to build on and contribute to what already exists. It needs to have additionality.

Build country buy-in and ownership.

Draw lessons from existing mechanisms to shape funding, governance and oversight.

Identify ways to diversify funding (e.g. private sector, debt swaps, carbon markets).

Governance framework needs to move forward Steering Committee is key.

WHO
